BLAZE A TRAIL WITH US

OUR DIRECTION

We guide young learners through **Play, Purpose, and Partnership**, the three pillars of the CDE Center. We believe in learning through meaningful play, in teaching with intention, and in building strong home-school connections. Our work is:

C hild-Centered

D evelopmentally Appropriate

E mpowering

creating a space where children grow with curiosity, confidence, and care.

OUR PROMISE

**At the CDE Center,
we help every child, teacher, and parent GROW**

by grounding learning, refining practice, opening hearts, and walking together.

G uide every child

W alk the journey together

HOW WE LIGHT THE WAY

At the CDE Center, we teach with intention. We see each child as a person of worth and potential and support growth across all domains of development. Our work is rooted in values that build character and community, strengthened by close partnership with families. We trust that play, inquiry, and conversation help children make sense of their world with confidence and understanding.

Our philosophy is grounded and flexible. We use established approaches and current research to meet children's needs in developmentally appropriate ways. Careful observation and evidence guide our work, keeping our practice steady, thoughtful, and child-centered.

At the CDE Center, we:

Honor the Child
Engage the Whole Self
Anchor in Values
Relate with Families
Trust the Process

Our practices are:

Culturally Grounded
Appropriate Developmentally
Responsive and Flexible
Evidence-Based
